Now that the weather is colder, please work with your child on putting on and taking off his jacket as well as zipping. These are important self-help skills that are necessary for Kindergarten

During the months of November and December, we will be studying buildings and construction. We will learn about different structures all over the world as well as the different kinds of buildings in our own neighborhood. The students will get opportunities to build with a myriad of different mediums (blocks, legos, playdough, foam) as well as learn to create a blueprint of a structure that they will then build.

Finally, you will work with your child on recreating your own home, focusing the amounts of windows, doors, etc. To go along with our study, we will be focusing on counting and recognizing the numerals from 1-15.

Thanksgiving Feast

We will have our Annual Thanksgiving Feast on Wednesday, November 21 at 11:00am. More details to follow later in the month.
