

# Mrs. Toal & Mrs. Everlin

## Dates to Remember

**Monday, May 28<sup>th</sup> – School Closed – Memorial Day**

During the month of May, we will be studying insects and bugs, especially caterpillars and butterflies. We will learn about the difference between bugs and insects and study the physical attributes of some of the more well-known insects and bugs. We will observe caterpillars grow and change into butterflies. The students will have a chance to learn about butterflies before we have our Release the Butterfly party!

Now that the weather has FINALLY started to warm up, here are some tips to help your child with the change in weather:

1. All shoes must cover your child's toes AND have a back for safety.
2. If it's cold enough to wear a jacket in the morning, send a sweatshirt with your child. The weather will most likely change dramatically by the afternoon.
3. If you send water with your child, please make sure your child's name is written on it.

We have finished all of our school year birthday celebrations. We have many summer birthdays this year. If you are interested in scheduling a birthday party for your summer baby before the end of the year, please see Mrs. Toal or Mrs. Everlin.

**Please remember to bring in your monthly supply of wipes and tissues. We are extremely low on both items.**
